Coop Bank, Houston,
Holds Stockholders'

A meeting for Central West Texas stockholders of the Houston Bank for Cooperatives will be held in Abilene March 25 according to W. N. Stokes Jr. the bank's president.

Several Hamlinites are expected to attend the meeting to be held in the Wooten Hotel and will begin at 9:00 o'clock a. m. Directors, managers and interested members of farmers' cooperatives in the area are invited to attend the meet.

"There are 41 farmer's cooperatives within a 50 mile radius of Abilene and among this number are some of the oldest and most successful cooperatives in the State," he said. "The cooperative gin at Rule was organized 34 years ago and the one at Munday recently observed its 33 anniversary. A total of 31 of the cooperatives gin cotton for the members and others crush cottonseed, handle grain, operate frozen food locker plants and purchase farm supplies.

"Stockholders in the Houston Bank for Cooperatives are these business organizations of farmers. Few farmers operate on a scale large enough to justify ownership of a cotton gin or a grain elevator. Such facilities as are needed to furnish these off-the-farm services can be owned by 100 or 200 farmers cooperatively," Stokes pointed out. "These cooperatives have played an important part in the farmers' big job of feeding and clothing the people of America and millions of less fortunate people in other lands."

California Creek Soil Conservation district technicians conducted a range conservation meeting and tour with the South Swendonia conservation group, located in Fisher County, Wednesday afternoon of March 3. Mack Reynolds, district supervisor made arrangements for the meeting.

Methods used for bringing about native range improvements were discussed. The group was taken on a short tour to the Hill farm operated by Orph Osborne where they observed an improving of a native pasture. This improvement was brought about by proper stocking and practicing deferred rotation grazing. This is being accomplished through the use of a variety of supplemental pastures grown on the cropland.

At the present time Osborne has 200 acres of vetch and oats and 15 acres of alfalfa which he phosphated. He also has about 32 acres of Blue Panic grass which was planted this year.

The group also stopped at the H. E. Redus farm where a four-acre patch of blue panic grass was observed. Redus sold approximately \$750 worth of seed from this patch last year.

To Play Singer Role
In H-SU Production

Joe Clements, sophomore student, of Hardin-Simmons University, Abilene, and son of Mrs. Clements of Hamlin, has been selected to play the role of ballad singer in "Black is the Color," major spring production of the H-SU Players, Dr. Katharine Boyd, director announced in a release to The Herald this week.

Clements, a music major, was drafted from the music department to take the ballad singer part, which vitally weaves the play together between acts and scenes.

The production, "Black is the Color" is the newest play from the pen of well-known playwright Robert Nall of Albany.

Theme of the play is of special interest to West Texans since it concerns early life near Fort Griffin in 1876. Title was taken from an old Western ballad, "Black is the Color of My True Love's Hair."

More than a score of students are slated for roles in the production. The ballads to be sung by Clements are originals written by Nall.

Premiere performance of the original play, the first world premiere to be presented in Abilene, will be given Friday, March 19. Other performances are scheduled for Saturday, March 20 and Monday and Tuesday, March 22 and 23.

High School students and out-of-town students will see the play Saturday night, while regular performances are set for Monday and Tuesday nights.

Jones County In
Sight of Red
Cross Quota

Jones County pulled within sight of its Red Cross goal last week with a total of \$5,772 in the till and the rural communities still carrying the load. Latest figures showed 70 per cent of the quota raised, with many communities yet to report.

Among the cities Stamford took a slight lead over Anson in per centage basis collected, showing a total of 83 per cent only four per cent above Anson. Last week they tied. Hamlin is still third with \$655 or 43 per cent of quota. J. C. Turner, Hamlin chairman, reported however the campaign had only begun in Hamlin and that judgement was not to be passed until all the figures were in.

Turner reported that most Hamlin folks were just beginning to realize that the campaign was primarily for themselves and Jones County, not for the National Headquarters. Two thirds of the amount collected this year will be retained in the county chapter so that should disaster strike anywhere in the County, we will be independent of National Headquarters in the first few hours of the emergency.

High quotas were established by the county chapter, comprised of Hamlin, Stamford, Anson, Lueders, Hodges and Avoca folks—noe somebody in Saint Louis, Missouri.

Bill Morrow, Stamford, County fund chairman, reported that volunteer contributions were trickling in from people who had been overlooked in the intense drive of the first day and urged that everybody who had been overlooked bring his share to the local headquarters in his community.

Latest figures available from over the County are as follows:

Table with 2 columns: Location and Amount. Rows include Anson (\$1,345.35), Hamlin (\$655.27), Bethel (\$265.00), Plainview (\$107.50), New Hope (\$132.00), Carlton (\$61.00), Lakota (\$47.00), New Light (\$42.00), Sunnyside (\$49.00), Stamford (\$2,765.52), Nelinda (\$105.00), Flat Top (\$80.00), Anderson Chapel (\$50.00), Wilson Chapel (\$27.00), Delk (\$40.00).

It is emphasized that these totals are not necessarily completed.

All workers are requested to contact those in their communities who could not be seen the first time around.

Morrow in closing, emphasized for Hamlin and other Jones Countians that it is by no means assured that the County quota would be reached and that we can not quit until it is reached.

Hamlin Man is
Named Stamford Pro

Jerry Stone of Hamlin has been employed as pro by directors of the Stamford Golf and Country Club. He formerly was associated with other clubs in this area and replaces Douglas Stevenson, who has been manager of the Stamford Club for about five years.

## TRUE STORIES OF WEST TEXAS

(By N. H. Kincaid, 2618 Hictory St., Abilene, Texas—Copyrighted)

## "MYSTERY WOMAN OF FORT GRIFFIN'S FLATS"

Lottie Deno had disappeared. Mystery woman thought she was, the gambling halls of Fort Griffin's flats had begun to idly wonder at her repeated absence. Her neat and richly furnished shanty, when finally entered, revealed little. Only a small, leather-bound trunk was missing and a note, tersely written in a cultured eastern boarding-school hand, was found pinned to her bedspread. It read, "Sell this outfit and give the money to someone in need of assistance."

As mysteriously as she had come, so had Lottie Deno vanished. She had arrived by stage and had departed the same way, and only her sojourn among them was definite.

But old timers long conjectured her identity and her whereabouts. They heard that she had been known as "Mystic Maude" in Fort Concho, arriving there from San An-

tonio in 1870. Her living habits there, however, had been as impeccable as later when at Fort Griffin. For, other than her gambling, she was a perfect lady, attractive, well dressed and cultured. As a gambler she played for high stakes and her success was phenomenal.

One night, so the story goes, a tight poker game was being played to a filled room in Fort Griffin between Monte Bill, Arizona card shark, and Smokey Joe of Texas gambling fame. Lottie Deno sat at a nearby table playing in a game with a \$50 limit. \$1,000 was in the pot when Smokey met Monte's challenge to raise the limit. But Monte laid down three aces and a pair of queens; and Smokey reached for his gun.

When the smoke had cleared away and the sheriff arrived, he found the crowd scattered and the two contestants dead on the floor. Only Lottie Deno had remained in the room. She stood in the corner, a calm and serene spectator.

And since Lottie would never admit getting off with the pot of more than a \$1,000, that was that; and there the matter ended.

Whether conjecture or fact, the story is told that Lottie later married a ranchman of Deming, New Mexico, and settled down to quiet and respectable life. Much of her time was devoted to church and charitable work and to looking after the cases of distress.

But certain it is that a few years ago a very old lady of Deming died. In order to defray funeral expenses and a few bills, her property and household effects were sold at pub-

## Hogs, Eggs Show Weak Spots, Others Stead to Strong on Markets Last Week

Hogs and eggs furnished weak spots at mostly steady to strong on Southwest farm markets last week, according to a report to The Herald from the Production and Marketing Administration of the United States Department of Agriculture.

Southwest grain markets experienced moderate up and down movements in light trading during the past week, and net gains ranged generally from one to six cents a bushel. No. 1 wheat closed around \$2.54 in bulk carlots at Texas common points with No. 2 white corn \$2.93 to \$2.96 and oats at \$1.43 to \$1.47.

Sharply reduced hay offerings sold

about unchanged. Feed prices varied little from a weak earlier. Demand for shelled peanuts dragged. A severe break in foreign wool prices slowed Southwest buying. Steadily climbing cotton prices recovered most of the loss sustained in the sharp break last week-end. Dallas good spot middling 15-16 inch Monday at 33.95.

Seasonally increasing egg supplies forced prices down mostly two to four cents a dozen during the past week. Current receipts ranged down from 40 cents to 37 a dozen during the past week. Poultry sold firm to stronger. Heavy hens brought 25 to 27 cents a pound at Fort Worth and Dallas and 35 to 39 at New Orleans.

South Texas cattle markets scored gains up to \$1 a hundred for the week, while other terminals showed uneven trends with no major changes. Houston paid \$18 to \$24 for common to medium steers and yearlings Monday. Medium and good \$25 to \$26.50 at San Antonio as grades of shortfed yearlings brought steers, yearlings and heifers sold at \$22.50 to \$26 at Fort Worth, shortfed steers \$25 to \$25.50 at Oklahoma City and high heifers \$19 to \$24 at Wichita.

Southwest hog prices opened he week mostly 50 to 75 cents a hundred lower than a week earlier. Texas markets paid \$22.25 to \$22.50 for good and choice medium weight butchers Monday, while Oklahoma and Kansas gave \$23 and Denver \$24 to \$24.50. Sows ranged largely from \$17 to 18 with San Antonio \$1 more.

Lambs sold around 50 cents higher at San Antonio and Denver for the week, but other Southwest markets lost mainly 50 cents to \$1. Ewes ruled steady to strong, with best grades bringing \$11 to \$12.50. San Antonio paid \$17 for common lambs, as Fort Worth took good shorn lambs at \$19 and Denver gave \$21.25.

Daver Smith, Mrs. R. L. Moore and M. F. Holmes, A. H. Cooley of Hamlin was transferred Tuesday night to a Abilene hospital for operation after coming in Monday.

## RETONGA FAR AHEAD DECLARES MRS. SHAW

Famous Medicine Did So Much For Her She Is Recommending It To All Her Friends, States Well Known Resident. Discusses Her Case

More praise for Retonga comes in every day from happy and grateful men and women who have found relief through its use, often after years of suffering. For instance, Mrs. C. C. Shaw, well-known resident of 325 Arcadia Avenue, South San Antonio, Texas, happily declares:

"Retonga did so much for me I am recommending it to all my friends. Poor appetite, sluggish elimination, gas and headaches kept me feeling miserable for months. I got so high strung I could not even get a good night's sleep, and I felt

so run-down and miserable most of the time it was an effort to turn my hand, as the saying is.

"Retonga gave me such splendid relief that I now enjoy every meal, my sleep is refreshing, and I don't feel tense and high strung. The constipation and those terrible headaches are also relieved, and I feel lots better and stronger. Retonga is far ahead of any medicine in my experience."

If the first bottle of Retonga does not bring gratifying relief its small cost will be refunded without question. Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, borderline vitamin B-1 deficiency and constipation. Accepted no substitute. Retonga may be obtained at Waggoner Drug Company. (Adv.)

CHICKS**

The government is asking poultry raisers to raise more chicks, and EARLY chicks, during 1948. The Iowa Agricultural Extension Service lists these advantages of an "All-pullet Flock."

1. Pullets are healthier.
2. Pullets usually lay 25 to 30 per cent more eggs annually than hens.
3. The feed eaten by the growing pullet is about equal to that eaten by the molting hen.
4. More eggs can be produced from pullets during the higher-price period of fall and winter.

## Water Facilities Loan Available to Jones County Farmers

Hamlin and other Jones County  
farmers who are interested in pro-  
viding improved facilities for their  
farms and are unable to arrange for  
funds elsewhere may take advan-  
tage of the types of assistance avail-  
able through Water Facilities loans  
of the Farmers Home Administra-  
tion, George von Roeder, county su-  
pervisor, has advised The Herald  
and its readers.

These loans, he continues, may be  
used to construct, repair, rehabili-  
tate, reinstate or enlarge farmstead  
facilities and also include such items  
as reservoirs, dams, ponds, wells, cis-  
terns, pipelines for distribution to  
points where needed, storage tanks,  
stock water tanks and spring de-  
velopment.

Water Facilities program is a ra-  
ther broad one and under the pro-  
visions of Public Law 399, not only  
provides Federal funds for loans,  
but technical assistance to indi-  
viduals, such as planning of the fa-  
cility to be installed and advice and  
guidance about planning and carry-  
ing out farm and home operations  
relating to the facility. Somebody  
has coined a phrase, "Running water  
is the first requirement of success-  
ful farming," mused von Roeder of  
the Farmers Home Administration.  
He might have added that a better  
water supply spells the difference  
between success and failure on many  
a farm.

A survey of farms equipped with  
adequate water reveals increased  
livestock and food production, and a  
safe supply of drinking water for  
the home, and this spells better  
health conditions. A farmstead wa-

## POT-SHOTS FROM McCAULLEY

By GEORGE DARDEN

Thanks to C. E. Gregory, G. R. Riddle and W. J. Madden of Hamlin and C. D. Jones of McCaulley for renewals to The Herald.

Mrs. Sim Reeves and daughter, Mary, and Mrs. Tate Eisenwine and daughters visited in the home of their sister, Mrs. George Darden, a family in McCaulley last week. Their homes are in Fort Stockton and Pecos.

Mr. and Mrs. W. W. Miers and family from Lamesa visited over the week-end with his father, S. E. Miers and other relatives.

Mr. and Mrs. T. P. Johnson from

Dublin visited his sister, Mr. and Mrs. Melvin Henderson, last week-end.

Mr. and Mrs. Marvin Maberry and son from Arlington visited last week-end in the home of Mr. and Mrs. Luther Matwry.

Mr. and Mrs. Jerry Crowley's daughter and family from Dallas visited over the week-end in the Crowley home.

A large crowd expected this Friday night for the Donkey basketball game in the gymnasium.

A. E. Crowley and Charley Nunn have announced for County Judge of Fisher County. Others are expected to announce this week.

Well neighbor, it looks like war, there is too much happening all over the world and to prevent a third World War will be something that is next to the impossible.

Mr. and Mrs. Albert Gallaway Jr. are the proud parents of a son.

This community is in need of one of those old time "tank buster" rains, not to severe but just enough to fill the stock tanks.

McCaulley citizens are planning on a water system and will meet at the school house this week to discuss plans.

Mrs. Ben Short will leave Wednesday of this week for Cisco where where she will visit a sister and a niece Miss Marie Moore from Memphis, Tennessee who is also visiting in Cisco.

Most all the land owners in this community have leased their land or on a deal to lease. Royalty buyers are "nibbling" but no selling.

A pipe line is to be layed this week from the W. F. Davidson wells in this vicinity beginning soon.

John Dean is to erect a brick business house on main street within the next few months. So goes the

grapevine.

McCaulley is going to need a depot and a depot agent if the oil business in these parts continues on the up and up.

Jack Griffith, who has been confined to the Veterans Hospital in McKinney for the past few weeks, has returned to his home.

W. J. Madden of Hamlin hands us \$5 on the McCaulley Cemetery Fund.

The soft coal miner's are on strike Joe Stalin is doing all within his power to gobble up the world Our Army camps have all disappeared.

It will cost millions to erect what we have salvaged within past two years pertaining to Army camps and equipment. It seems that we are in dire need of men in Washington who can see beyond their nose. We need universal military training in the worst way. Senator Taft still says we need not fear Russia but we remember well he said the same about Hitler. Henry Wallace too is talking as if Russia and Stalin were as meek as lambs. We may wake up some of these days with than Pearl Harbor. Its time that something on our hands far worse honest, deep thinking Americans demand of our leaders protection from the war lords of Russia. Our planes should be loaded with atomic bombs and ready to take off on one moments notice. Yes, it's horrible to think about such a world but such is the world we live in.—A-Darden-O-Gram.

Methodist meeting closed Sunday night with a large crowd in attendance.

## Coop Bank, Houston, Holds Stockholders' Meet In Abilene

A meeting for Central West Texas stockholders of the Houston Bank for Cooperatives will be held in Abilene March 25 according to W. N. Stokes Jr. the bank's president.

Several Hamlinites are expected to attend the meeting to be held in the Wooten Hotel and will begin at 9:00 o'clock a. m. Directors, managers and interested members of farmers' cooperatives in the area are invited to attend the meet.

"There are 41 farmer's cooperatives within a 50 mile radius of Abilene and among this number are some of the oldest and most successful cooperatives in the State," he said. "The cooperative gin at Rule was organized 34 years ago and the one at Munday recently observed its 33 anniversary. A total of 31 of the cooperatives gin cotton for the members and others crush cottonseed, handle grain, operate frozen food locker plants and purchase farm supplies.

"Stockholders in the Houston Bank for Cooperatives are these business organizations of farmers. Few farmers operate on a scale large enough to justify ownership of a cotton gin or a grain elevator. Such facilities as are needed to furnish these off-the-farm services can be owned by 100 or 200 farmers cooperatively," Stokes pointed out. "These cooperatives have played an important part in the farmers' big job of feeding and clothing the people of America and millions of less fortunate people in other lands."

The group was taken on a short tour to the Hell farm operated by Orph Osborne where they observed an improving of a native pasture. This improvement was brought about by proper stocking and practicing deferred rotation grazing. This is being accomplished through the use of a variety of supplemental pastures grown on the cropland.

At the present time Osborne has 200 acres of vetch and oats and 15 acres of alfalfa which he phosphated. He also has about 32 acres of Blue Panic grass which was planted this year.

## Joe Clements Selected To Play Singer Role In H-SU Production

## Jones County In Sight of Red Cross Quota

Jones County pulled within sight of its Red Cross goal last week with a total of \$5,772 in the till and the rural communities still carrying the load. Latest figures showed 70 per cent of the quota raised, with many communities yet to report.

Among the cities Stamford took a slight lead over Anson in percentage basis collected, showing a total of 83 per cent only four per cent above Anson. Last week they tied. Hamlin is still third with \$655 or 43 per cent of quota. J. C. Turner, Hamlin chairman, reported however the campaign had only begun in Hamlin and that judgement was not to be passed until all the figures were in.

Turner reported that most Hamlin folks were just beginning to realize that the campaign was primarily for themselves and Jones County, not for the National Headquarters. Two thirds of the amount collected this year will be retained in the county chapter so that should disaster strike anywhere in the County, we will be independent of National Headquarters in the first few hours of the emergency.

High quotas were established by the county chapter, comprised of Hamlin, Stamford, Anson, Lueders, Hodges and Avoca folks—no somebody in Saint Louis, Missouri.

Bill Morrow, Stamford, County fund chairman, reported that volunteer contributions were trickling in from people who had been overlooked in the intense drive of the first day and urged that everybody who had been overlooked bring his share to the local headquarters in his community.

Latest figures available from over the County are as follows:

Anson	\$1,345.35
Hamlin	655.27
Bethel	265.00
Plainview	107.50
New Hope	132.00
Carlton	61.00
Lakota	47.00
New Light	42.00
Sunnyside	49.00
Stamford	2,765.52
Nienda	105.00
Flat Top	80.00
Anderson Chapel	50.00
Wilson Chapel	27.00
Delk	40.00

It is emphasized that these totals are not necessarily completed.

All workers are requested to contact those in their communities who could not be seen the first time around.

Morrow in closing, emphasized for Hamlin and other Jones Counties that it is by no means assured that the County quota would be reached and that we can not quit until it is reached.

## TRUE STORIES of WEST TEXAS

(By N. H. Kincaid, 2618 History St.,  
Ablene, Texas—Copyrighted)

## "MYSTERY WOMAN OF FORT GRIFFIN'S FLATS"

Lottie Deno had disappeared. Mystery woman thought she was, the gambling halls of Fort Griffin's flats had begun to idly wonder at her repeated absence. Her neat and richly furnished shanty, when finally entered, revealed little. Only a small, leather-bound trunk was missing and a note, tersely written in a cultured eastern boarding-school hand, was found pinned to her bedspread. It read, "Sell this outfit and give the money to someone in need of assistance."

As mysteriously as she had come, so had Lottie Deno vanished. She had arrived by stage and had departed the same way, and only her sojourn among them was definite.

But old timers long conjectured her identity and her whereabouts. They heard that she had been known as "Mystic Maude" in Fort Concho, arriving there from San An-

tonio in 1870. Her living habits there, however, had been as impeccable as later when at Fort Griffin. For, other than her gambling, she was a perfect lady, attractive, well dressed and cultured. As a gambler she played for high stakes and her success was phenomenal.

One night, so the story goes, a tight poker game was being played to a filled room in Fort Griffin between Monte Bill, Arizona card shark, and Smokey Joe of Texas gambling fame. Lottie Deno sat at a nearby table playing in a game with a \$50 limit. \$1,000 was in the pot when Smokey met Monte's challenge to raise the limit. But Monte laid down three aces and a pair of queens; and Smokey reached for his gun.

When the smoke had cleared away and the sheriff arrived, he found the crowd scattered and the two contestants dead on the floor. Only Lottie Deno had remained in the room. She stood in the corner, a calm and serene spectator.

And since Lottie would never admit getting off with the pot of more than a \$1,000, that was that; and there the matter ended.

Whether conjecture or fact, the story is told that Lottie later married a ranchman of Deming, New Mexico, and settled down to quiet and respectable life. Much of her time was devoted to church and charitable work and to looking after the cases of distress.

But certain it is that a few years ago a very old lady of Deming died. In order to defray funeral expenses and a few bills, her property and household effects were sold at pub-

## Hogs, Eggs Show Weak Spots, Others Stead to Strong on Markets Last Week

Hogs and eggs furnished weak spots at mostly steady to strong on Southwest farm markets last week, according to a report to The Herald from the Production and Marketing Administration of the United States Department of Agriculture.

Southwest grain markets experienced moderate up and down movements in light trading during the past week, and net gains ranged generally from one to six cents a bushel. No. 1 wheat closed around \$2.54 in bulk carlots at Texas common points with No. 2 white corn \$2.93 to \$2.96 and oats at \$1.43 to \$1.47.

Sharply reduced hay offerings sold

about unchanged. Feed prices varied little from a week earlier. Demand for shelled peanuts dragged. A severe break in foreign wool prices slowed Southwest buying.

Steadily climbing cotton prices recovered most of the loss sustained in the sharp break last week-end. Dallas quoted spot middling 15-16 inch Monday at 33.95.

Seasonally increasing egg supplies forced prices down mostly two to four cents a dozen during the past week. Current receipts ranged down from 40 cents to 37 a dozen during the past week. Poultry sold firm to stronger. Heavy hens brought 25 to 27 cents a pound at Fort Worth and Dallas and 35 to 39 at New Orleans.

South Texas cattle markets scored gains up to \$1 a hundred for the week, while other terminals showed uneven trends with no major changes. Houston paid \$18 to \$24 for common to medium steers and yearlings Monday. Medium and good \$25 to \$26.50 at San Antonio as grades of shortfed yearlings brought steers, yearlings and heifers sold at \$22.50 to \$26 at Fort Worth, shortfed steers \$25 to \$25.50 at Oklahoma City and high heifers \$19 to \$24 at Wichita.

Southwest hog prices opened the week mostly 50 to 75 cents a hundred lower than a week earlier. Texas markets paid \$22.25 to \$22.50 for good and choice medium weight butchers Monday, while Oklahoma and Kansas gave \$23 and Denver \$24 to \$24.50. Sows ranged largely from \$17 to 18 with San Antonio \$1 more.

Lambs sold around 50 cents higher at San Antonio and Denver for the week, but other Southwest markets lost mainly 50 cents to \$1. Ewes ruled steady to strong, with best grades bringing \$11 to \$12.50. San Antonio paid \$17 for common lambs, as Fort Worth took good shorn lambs at \$19 and Denver gave \$21.25.

## RETONGA FAR AHEAD DECLARES MRS. SHAW

Famous Medicine Did So Much For Her She Is Recommending It To All Her Friends, States Well Known Resident. Discusses Her Case

More praise for Retonga comes in every day from happy and grateful men and women who have found relief through its use, often after years of suffering. For instance, Mrs. C. C. Shaw, well-known resident of 325 Arcadia Avenue, South San Antonio, Texas, happily declares:

"Retonga did so much for me I am recommending it to all my friends. Poor appetite, sluggish elimination, gas and headaches kept me feeling miserable for months. I got so high strung I could not even get a good nights sleep, and I felt

so run-down and miserable most of the time it was an effort to turn my hand, as the saying is.

"Retonga gave me such splendid relief that I now enjoy every meal, my sleep is refreshing, and I don't feel tense and high strung. The constipation and those terrible headaches are also relieved, and I feel lots better and stronger. Retonga is far ahead of any medicine in my experience."

If the first bottle of Retonga does not bring gratifying relief its small cost will be refunded without question. Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, borderline vitamin B-1 deficiency and constipation. Accepted no substitute. Retonga may be obtained at Waggoner Drug Company. (Adv.)

### BABY CHICKS

### BABY CHICKS

The government is asking poultry raisers to raise more chicks, and EARLY chicks, during 1948. The Iowa Agricultural Extension Service lists these advantages of an "All-pullet Flock."

1. Pullets are healthier.
2. Pullets usually lay 25 to 30 per cent more eggs annually than hens.
3. The feed eaten by the growing pullet is about equal to that eaten by the molting hen.
4. More eggs can be produced from pullets during the higher-price period of fall and winter.

## Water Facilities Loan Available to Jones County Farmers

Hamlin and other Jones County farmers who are interested in providing improved facilities for their farms and are unable to arrange for funds elsewhere may take advantage of the types of assistance available through Water Facilities loans of the Farmers Home Administration. George von Roeder, county supervisor, has advised The Herald and its readers.

These loans, he continues, may be used to construct, repair, rehabilitate, reinstate or enlarge farmstead facilities and also include such items as reservoirs, dams, ponds, wells, cisterns, pipelines for distribution to points where needed, storage tanks, stock water tanks and spring development.

Water Facilities program is a rather broad one and under the provisions of Public Law 399, not only provides Federal funds for loans, but technical assistance to individuals, such as planning of the facility to be installed and advice and guidance about planning and carrying out farm and home operations relating to the facility. Somebody has coined a phrase, "Running water is the first requirement of successful farming," mused von Roeder of the Farmers Home Administration. He might have added that a better water supply spells the difference between success and failure on many a farm.

A survey of farms equipped with adequate water reveals increased livestock and food production, and a safe supply of drinking water for the home, and this spells better health conditions. A farmstead water system to be effective and efficient must be as modern as the new farm buildings or mechanized equipment to increase production on the farm. Farmers are learning the rope and bucket or hand pump are

Rev. E. L. Yates of Seymore and Rev. J. E. Harrell of Haskell visited friends in Hamlin Monday. Both are former pastors of the Hamlin Methodist Church.

Mr. and Mrs. Jack McClung and daughter, Patricia, of Olney, were visitors in Hamlin Saturday. They were enroute to Los Angeles, California.

Inadequate to serve their needs.

Farmers who desire information on an improved water system such as may be provided through the Farmers Home Administration Water Facilities program may consult with County Supervisor George von Roeder at his office in the post office building in Anson.

Attention of World War II veterans was made this week by Landon V. Davis, Jones County Service Officer of Anson that the time for reinstatements of National Service Life Insurance without a physical examination has been extended to July 31, 1948.

He stated, "By all means, recover your NSLI in whatever amount you can afford to keep, while it can yet be done with no physical examination and practically no expense, just two months premiums, the month of lapse and the month of reinstatement."

He concluded by reminding the veterans that no other insurance has value equal to it available today.

"Safeway guarantees to sell every food at the bottom price in this neighborhood"

### This is SAFEWAY'S guarantee!

We guarantee you the bottom price in your shopping district—grade for grade and quality for quality—on every food store item

We mean this on every item...every day

To avoid wasting time, energy and gasoline in shopping around, our promise of the bottom price goes—for every food store item—not just one or two "specials" for each and every day you shop—not just for "special" days  
It is Safeway's policy to always sell food at the lowest price. And to be sure of that, it is also Safeway's policy to meet any and every low food price in your neighborhood.

### Here's how you can help us keep food prices low:

OUR METHOD of food distribution regularly assures lowest food prices at Safeway. But some day we may miss some "special." We want to give you the lowest prices on "specials" too.

Will you do this? If you see any product on our shelves that you believe can be bought elsewhere for less, tell one of our staff. We will immediately investigate. If the competitive price is for comparable

quality, we will promptly meet the lower price.

Remember, food prices must be low at Safeway. We bring foods in by direct routes, handle them efficiently, cut unnecessary costs. You help keep food distribution costs low by waiting on yourself, paying cash and carrying your purchases home.

By trading at Safeway you earn and are entitled to the lowest food prices.

The manager of your **SAFEWAY**
